Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 03 February 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Detailed Action

This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the reason(s) set forth below or on the attached Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures. Specifically, an amino acid sequence (EYFA) on page 29, line 19 has not been included in the Sequence Listing filed 5/15/02. It is noted that this deficiency was previously noted in Paper #18, mailed 10/10/01).

Applicant must comply with the sequence rules, 37 CFR 1.821 - 1.825. Direct the reply to the undersigned. Applicant is requested to return a copy of the attached Notice to Comply with the reply.

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 3, 8 and 11 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

This rejection is maintained for reasons of record in the previous Office Action (Paper#22) and for reasons outlined below.

Art Unit: 1636

Applicants have responded to this rejection by amending claim 3 to recite a "...transfected endothelial cell which comprises a living tissue...". Applicants indicate that this limitation renders the claim distinct from a human being.

Applicant's arguments filed 2/3/03 have been fully considered but they are not persuasive. The recited limitation still reads on a transfected endothelial cell which can be *in vivo* since the "living tissue" can be in a human. Redrafting claim 3 to recite a "...transfected endothelial cell which comprises a living tissue *in vitro*..." would be remedial.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-8 and 11-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-3, 12 and 13 lack an article prior to the noun "syndecan-4" in lines 8 and 17 in claims 1-2 and 12; lines 9 and 12 and 20 in claim 3; lines 9, 18 and 27 in claim 13. Redrafting the claims to insert --a-- prior to "syndecan-4" would be remedial.

Claim 3 is vague in the recitation of the phrase "...transfected endothelial cell which comprises a living tissue..." because it is unclear how a cell can be composed of a living tissue.

Art Unit: 1636

The traditional use of “comprises” states that the whole comprises the parts. In claim 3, the language is drafted so that the part (a cell) comprises the whole (living tissue).

No Claims are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
